PANDEMIC MEASURES CONTINUING WHILE ECONOMY REOPENS

There have been some positive indicators over the past couple of weeks, and we are happy but nervous, to have begun our reopening process in Mobert.

We are currently commencing **Phase 1** of our reopening plan, which has provided opportunities for weekly shopping trips and a return to work for residents to approved employers. We have also brought back some essential staff including our Band General Manager and our health team.

While a few parts of our normal lives are returning, it is very important to remember that we are still in the early stages of a pandemic.

Although our current measures have been keeping our community safe, there will be risks as the local and Ontario economy reopen, and our community members start moving around the region.

The Council is currently completing its detailed reopening plan and will report back on this soon.

In the meantime, it is very important that all of our residents continue to live safely and take all reasonable precautions including:

- Continue using hand sanitizer and regular hand washing,
- Wearing a mask when you are out or at work and might come in personal contact with another person,
- Keep social distancing, keeping at least 6' apart from other persons at all times.

This is not over yet, and although we want to bring back some elements of normal life, we have to remember that the virus is still out there and we still need to live carefully and cautiously to keep the COVID out of Mobert.

Miigwetch!
