

Lunch for Students
February 17, 2021

All students must eat lunch at school. Due to COVID-19 we want to minimize the amount of outside contact students have during the school day. Students who eat lunch at school can only leave if picked up by their parent/guardian or if a signed note or telephone call (messenger) is received from the parent/guardian. If a student misbehaves during lunch, they will have their parent/guardian called to pick them up and escort them home.

All students will eat lunch in their own classrooms. Microwaves are not available for student use. No meals will be provided by the school. Snack food only will be available through out the day, these will be individually wrapped or single serve i.e., an apple.

Students must remain at their desk and not move around. There will be a scheduled 15-minute break and the students will have access to their I Pads and sketchpads once they are done eating and the flat surface is cleaned and sanitized.
